Creating backlog for project

The screenshot displays the Jira Software interface for a project named 'Inventory Management System for Retailers'. The left sidebar shows the project navigation menu with options like 'Roadmap', 'Backlog' (selected), 'Board', 'Code', 'Project pages', 'Add shortcut', and 'Project settings'. The main area shows the 'Backlog' view with a search bar and filters. The backlog contains three sprints: 'IMSFR Sprint 2' (31 Oct - 5 Nov, 6 issues), 'IMSFR Sprint 3' (7 Nov - 12 Nov, 6 issues), and 'IMSFR Sprint 4' (14 Nov - 19 Nov, 2 issues). Below the sprints, two issues are visible: 'IMSFR-24 As a user, I can access the software in the web' (labeled 'CONTAINERIZATION') and 'IMSFR-23 As a user, I can access the software with high performance' (labeled 'DEPLOYMENT'). A 'Quickstart' tooltip is visible in the bottom right corner.
